DRESS CODE POLICY FOR STAFF

Public image plays an important role in developing and maintaining support for the Voluntown Public Library. In order to maintain a good image consistent with a professional organization, it is expected that each staff member's dress and grooming will be appropriate for a business environment and in keeping with his or her work assignment.

Employees will dress in a business like manner.

Exceptions to these policies may be made on an as-needed basis.

In case of questions regarding appropriateness of dress related to this policy, the Library Director's decision will prevail.
